Superintendent and Governing Board

May 20, 2022

Dear Cartwright Parents and Families,

I want to take this opportunity to thank you for sending us your very best students to our amazing district schools. It has been an honor to have worked with your children. We have the very best teachers and staff and I say that with honesty and pride!

Despite the hardships that came with the third school year maneuvering through a world-pandemic, our student scholars thrived, our dedicated teachers, administrators, bus drivers, office staff, nurses, counselors, maintenance, AC techs, landscapers, all building and operations, business services, educational services and all district staff provided the very best each day to educate and provide you with the absolute best learning experiences. We also were able to begin to open up our sports and extra-curricular experiences so that our scholars would be able to have more opportunities. We also added some field trips, including taking all our second graders to the Hall of Flames Museum to learn about the history of fire fighting and safety in our homes to the Aquarium in the East Valley to a Phoenix Rising FC and Phoenix Suns games connecting to STEM experiences. Next year, we have so many more trips and opportunities planned!

If you are not a Cartwright scholar yet, please call your neighborhood school or review our website for how to register for our "One Team, Una Familia" Cartwright schools. You will love it here!

As we close out the school year, please consider sending your children to summer school or enjoy the peace and extra family time that summer brings and above all stay safe and cool!

I continue to be proud to be your Superintendent. Thank you for being our partner in educating our future.

Sincerely,

Dr. LeeAnn Aguilar-Lawlor
Superintendent
